ABOUT

HTC Pediatrics is a pediatric specialty nursing/therapy company. Our licensed nurses/therapists are dedicated in assisting our clients to attain their maximum functional potential through a team approach.

We specialize in providing In-Home Nursing Care, Speech Therapy (ST), Occupational Therapy (OT) and Physical Therapy (PT) to children in the comfort of their home. We service infants and children from birth to 21 years of age.

We strive to utilize evidence-based therapeutic techniques to provide exceptional therapeutic services to our clients.

Our Mission:

- To provide quality and individualized care tailored to meet the unique needs of each child.
- To work in collaboration with family and health care personnel that are involved in each child's case to achieve the optimal goal in a timely and effective manner.

Our Goals:

Our ultimate goal is to help your child live more independent and functional life. To improve the quality of life for the child and their family. To provide prompt and personable service understanding each child is unique.

STAFF

Our staff comprises of *licensed RNs & LVNs, SLPs & SLPAs, OTRs & COTAs and PTs & PTAs with strong ethical background and full dedication to the provision of quality care.* Our nurses & therapists have been extensively trained and experienced in working with children with different diagnosis and conditions, including but not limited to:

- Autism Spectrum Disorders
- Receptive/Expressive Language Delays
- Learning Disability
- Handwriting Difficulties
- Fine & Gross Major Delays
- Muscular Dystrophy
- Neuromuscular Disorder
- Functional Balance Disorder
- Behavior Problems
- Self Care Independence
- Pervasive Developmental Disorder
- Attention Deficit Hyperactivity
- Social Communication Disorders
- Feeding Disorder
- Sensory Disorder
- Cerebral Palsy
- Cleft / Lip Palate
- Coordination Disorder
- Gait Disorder
- Birth Defects
- Articulation Disorders
- Congenital Disorders
- Breathing Disorders
- Respiratory Disorders
- *And other diagnosis*

Are you worried that your child is delayed developmentally compared with other children?

If so, then we are here to help!

SERVICES

Speech-Language Therapy:

Our dynamic **Speech Therapy Team** addresses the needs of children with language, articulation/phonological, voice, fluency (stuttering), and/or swallowing disorders. We provide individual, specialized, and medically based treatments in a positive and motivating atmosphere.

Occupational Therapy:

Our creative **Occupational Therapy Team** helps infants and children *achieve independence* in various aspects of their daily lives. We facilitate play, learning, and self-care skills by improving their fine motor, sensory processing, behavioral, and visual perceptual skills in a fun and engaging setting.

Physical Therapy:

Our dedicated **Physical Therapy Team** works to acquire *maximum functional mobility* in children with disabilities or injuries. We use specialized, one-on-one techniques to address gross motor deficits in gait (walking), balance, strength, range of motion, posture/positioning and joint mobility.
